

In the Claims:

Kindly amend the claims as follows:

1. (ORIGINAL) A device for pasting wallpaper, comprising:
 - a main body member;
 - a means for receiving a wallpaper roll, disposed on said main body member;
 - a first vertical member for containing adhesive, disposed within said main body member;
 - a second vertical member for containing adhesive disposed within said main body member.
2. (ORIGINAL) The device of claim 1, further comprising a counter in communication with said main body member.
3. (CURRENTLY AMENDED) The device of claim 1, further comprising two adjustment pieces in communication with said first vertical member for containing adhesive.
4. (CURRENTLY AMENDED) The device of claim 1, ~~further comprising wherein~~ said two adjustment pieces are in communication with said second vertical member for containing adhesive.
5. (ORIGINAL) The device of claim 1, further comprising a workbench disposed underneath said main body member.
6. (NEW) The device of claim 1, wherein said adjustment pieces are configured to prevent adhesive from moving backwards on said main body member.
7. (NEW) The device of claim 1, wherein said two adjustment pieces are configured to accommodate different thicknesses of wallpaper.
8. (NEW) The device of claim 1, wherein each of said two adjustment pieces have a knob that a user can turn with the user's hand to adjust the height of said first vertical member and said second vertical member.
9. (NEW) The device of claim 1, wherein said main body member is configured to be three various sizes dependent upon the wallpaper-pasting needs of the user.
